Since 1991, Aurora Diagnostics Twin Cities Dermatopathology, has been privileged to have renowned dermatopathologist Valda N. Kaye, M.D. as a member of their medical staff. In her role as Director of Dermatopathology, Dr. Kaye has been instrumental in the development of Twin Cities dermatopathology program and its delivery of high-quality dermatopathology services. Dr. Kaye is nationally board-certified in anatomic pathology, dermatology and dermatopathology. Her medical education credentials are impeccable, having received an MB BCh degree (MD equivalent) from the prestigious University of the Witwatersrand, Johannesburg, South Africa. After nearly two years of successful graduate medical training (internships) in South Africa, Dr. Kaye completed a five-year residency in pathology at the South African Institute for Medical Research, Johannesburg; a one-year fellowship in surgical pathology at the highly acclaimed University of Minnesota Medical School, Minneapolis; a one-year fellowship in dermatopathology at the University of Minnesota Medical School, and a three-year residency in dermatology at the University of Minnesota Medical School, during which she was recognized for her special competence in dermatopathology.

In addition to her service at Twin Cities Dermatopathology, Dr. Kaye has served with utmost distinction in a series of key positions within both the academic and clinical service arenas, as follows:

- Adjunct professor, Department of Pathology, UMMSM
- Adjunct professor, Department of Dermatology, UMMSM
- Clinical dermatologist, Hutchinson Medical Center, Hutchinson, MN
- Assistant professor, Department of Pathology, UMMSM
- Assistant professor, Department of Dermatology, UMMSM
- Director, Dermatopathology Laboratory, Department of Dermatology Pathology, UMMSM
- Instructor and Acting Director, Immunohistochemistry Laboratory, Department of Pathology, University of Minnesota Medical School, Minneapolis (UMMSM)

As a guest speaker, Dr. Kaye has coauthored a number of poster and scientific presentations at major medical society annual conferences. In addition, she has coauthored several dermatology-related book chapters and many articles that were subsequently published in some of our more prestigious scientific journals. (See the reverse side of this CV for a sampling of her published works.)

VALDA N. KAYE, M.D.

Director of Dermatopathology
